

Example Comparison Report

Single localized abnormality

Case: 804bcde30d36e32d9429f00bed7a388d

Review status: supported Confidence: high

Image Comparison

Model Comparison

Reference	Swin	YOLO
Aortic enlargement	Predicted: Aortic enlargement Correct: Aortic enlargement Missed: none	Predicted: Aortic enlargement Correct: Aortic enlargement Missed: none

Findings

- The chest X-ray demonstrates aortic enlargement.
- Both the Swin classifier (probability 0.89) and YOLO detector (confidence 0.26) identified this finding, with localization support provided by the detection model in the expected mediastinal region.

Impression

- Findings consistent with aortic enlargement.
- This represents a cardiomeastinal abnormality that warrants clinical correlation and potential further evaluation as clinically indicated.

Agentic Workflow Summary

The agentic report favors Aortic enlargement with a high confidence band and a supported review status. Primary AI-supported findings are Aortic enlargement, while the remaining uncertain findings are none. Relative to radiologist labels, Swin captured Aortic enlargement and YOLO localized Aortic enlargement. Overall pattern emphasis is Cardiomeastinal abnormality.

Supporting Evidence

Top Swin Probabilities

- - Aortic enlargement: 0.890
- - Pleural thickening: 0.303
- - No finding: 0.237
- - Cardiomegaly: 0.167
- - Calcification: 0.091
- - Other lesion: 0.081

Top YOLO Detections

- - Aortic enlargement: 0.26 @ [272.6, 116.3, 329.1, 190.2]

Takeaways

- Swin correct labels: 1 / 1
- YOLO correct labels: 1 / 1
- Swin key miss: none
- YOLO key miss: none

Confidence Rules Used

- Swin positive label cutoff: 0.50
- YOLO detection confidence cutoff: 0.25
- Agentic AI confidence band is qualitative and selected by the reviewer.

This is an AI-generated decision-support summary based on automated image analysis. Human radiologist review is required for clinical use and final interpretation. This summary should not be used as a substitute for professional medical judgment or definitive diagnosis.
